SUSTAINABILITY IS OUR SHARED

At NordicMed, we are a leading supplier of medical products in Denmark, dedicated to advancing sustainability in the healthcare sector. We take pride in offering high-quality products that contribute to a healthier future for both people and the planet.

We have already implemented several initiatives to minimize our environmental impact. For example, our packaging solutions are eco-friendly, using recyclable cardboard, minimal printing and color usage, and a strong commitment to avoiding air freight. This approach helps reduce our carbon footprint and ensures that our packaging is as sustainable as possible. All NordicMed products come in FSC-certified cardboard, guaranteeing that the materials used are sourced from responsibly managed forests. This certification is a vital part of our strategy to promote responsible resource use and protect natural habitats.

RESPONSIBILITY

Over the years, we have made a sincere effort to introduce products and solutions with a reduced environmental impact. Our aim has always been to offer products that are not only of high quality but also designed with consideration for the environment.

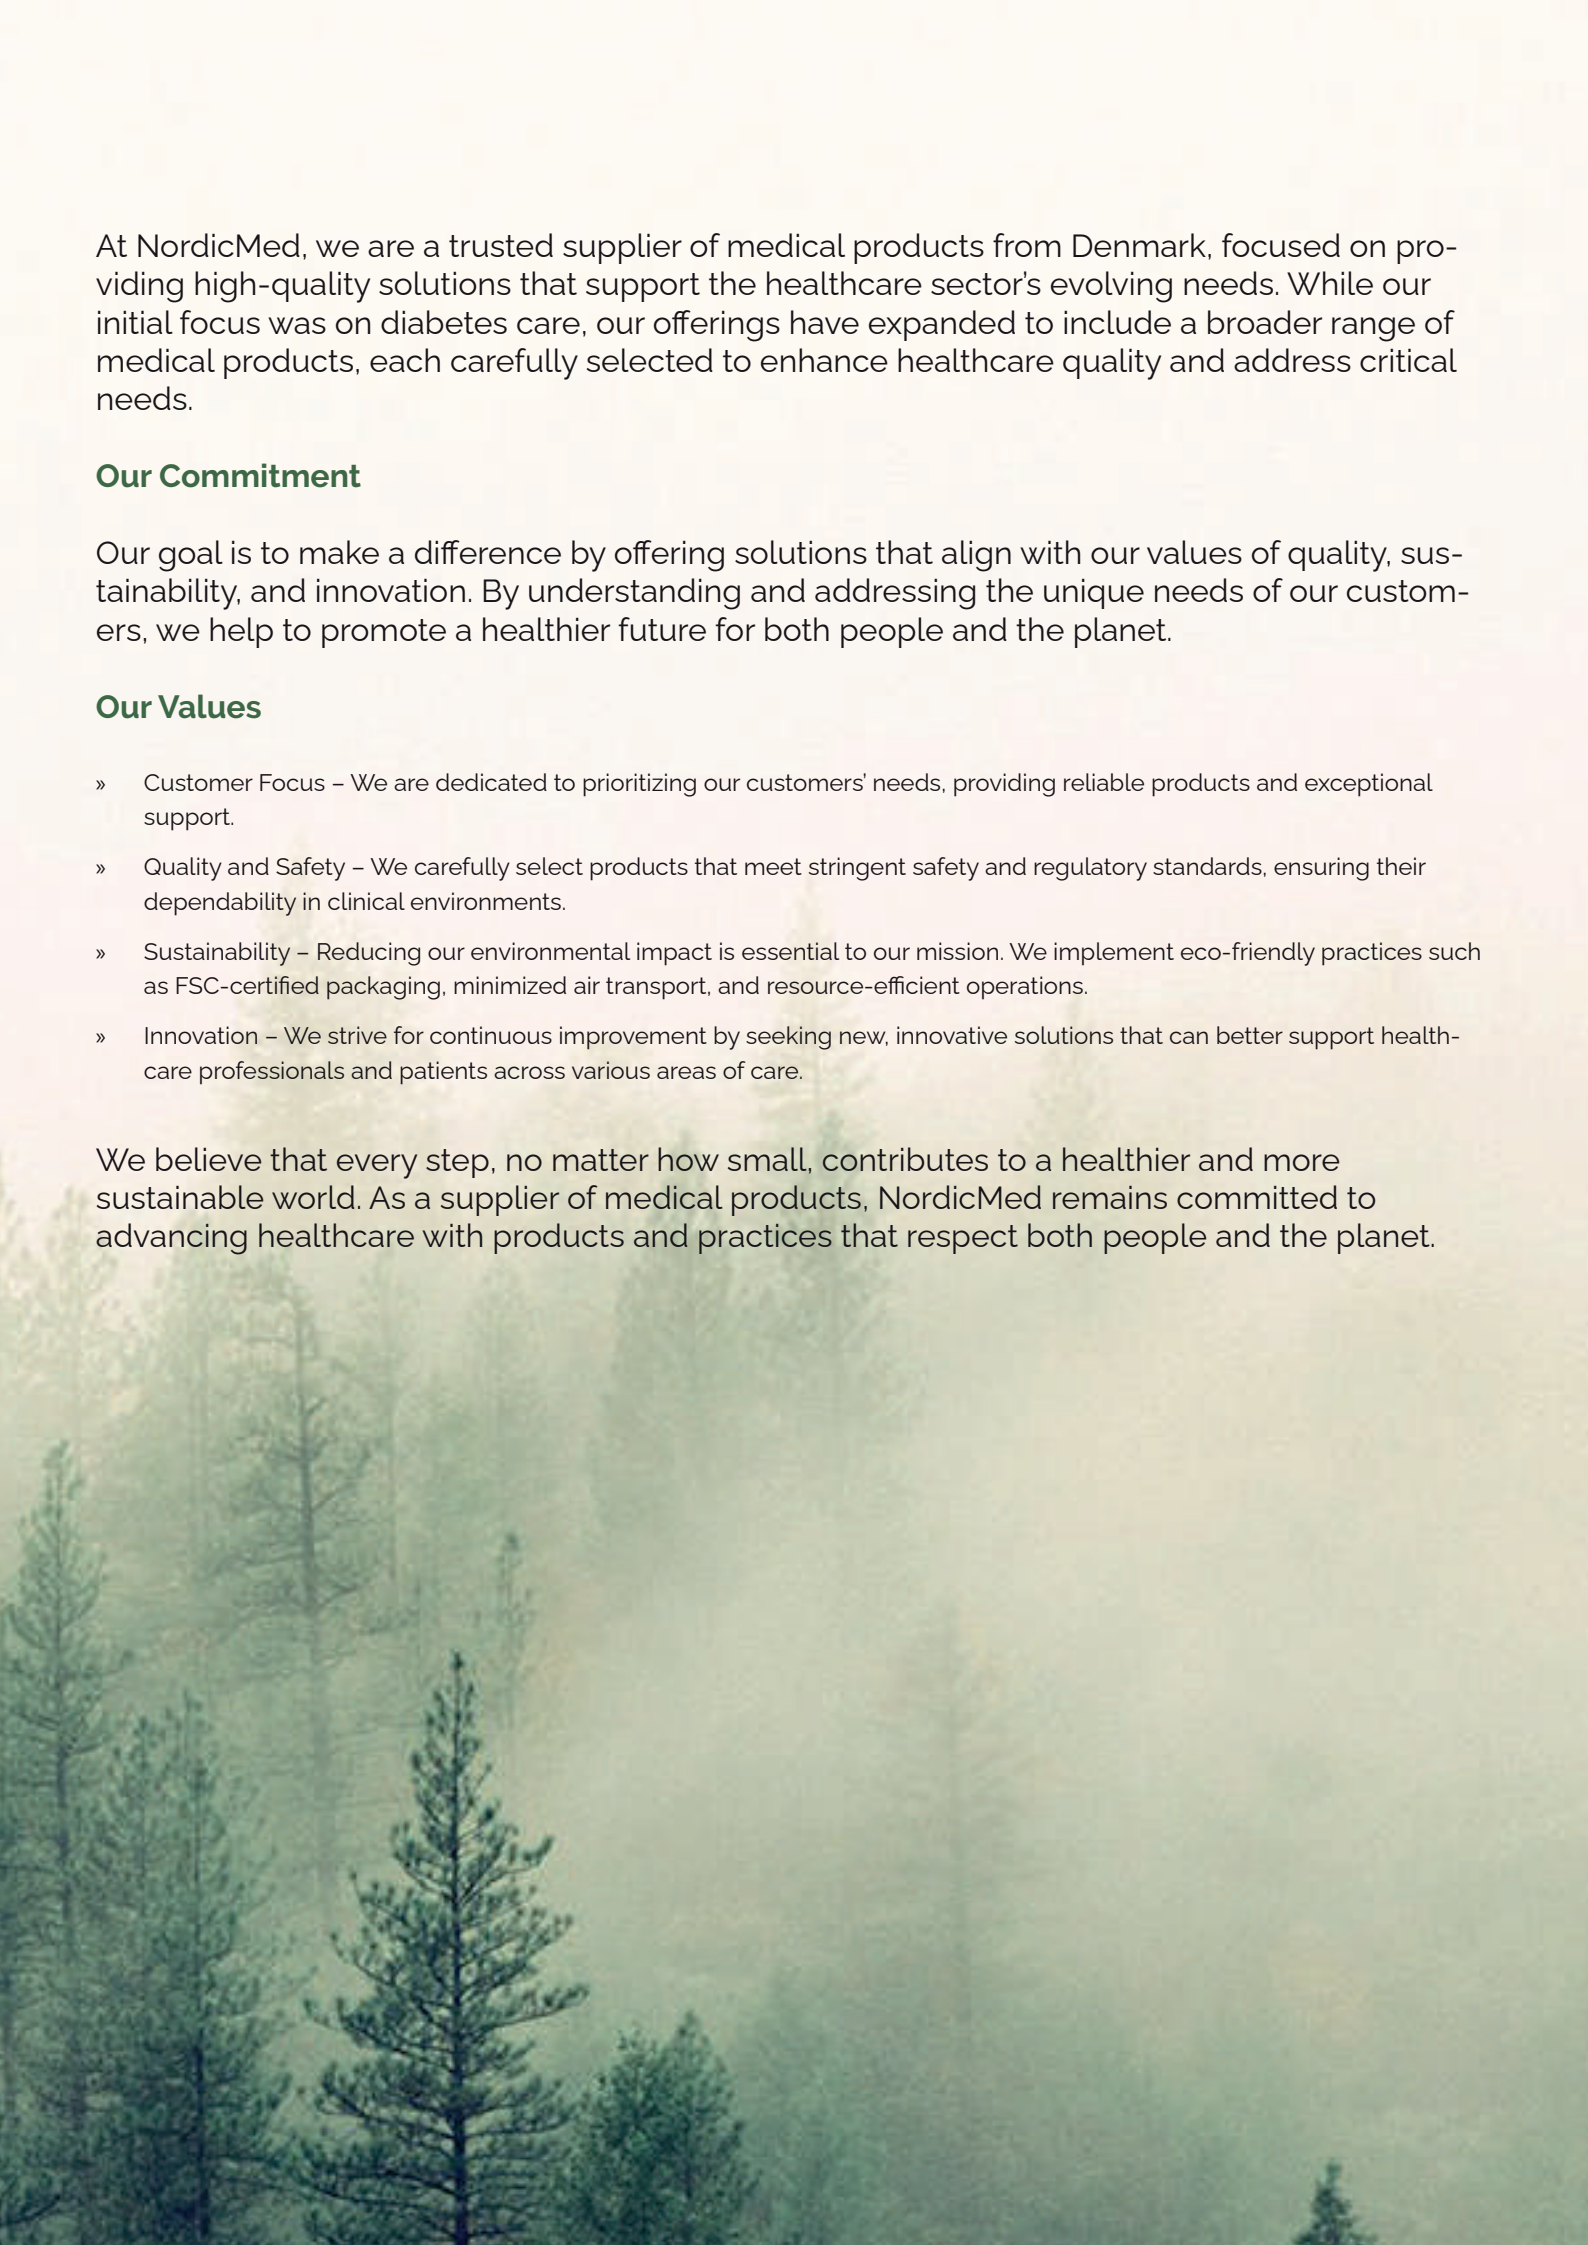

A key focus for us is to ensure that the medical products we provide meet stringent health and safety standards while also addressing environmental concerns. We work hard to ensure that our products are safe for healthcare providers and patients and that they align with sustainable practices.

We all share the responsibility of protecting the environment and combating climate change. As a participant in the medical product industry, we are committed to doing our part to reduce resource consumption and minimize our environmental impact. While we are on the right path, we recognize that there is always more to learn and improve. We remain dedicated to seeking out better solutions that benefit both the environment and the communities we serve – every step, no matter how small, counts.

“We aim to contribute to the sustainable improvement of healthcare by consistently prioritizing our customers’ needs.”

At NordicMed, we are a trusted supplier of medical products from Denmark, focused on providing high-quality solutions that support the healthcare sector's evolving needs. While our initial focus was on diabetes care, our offerings have expanded to include a broader range of medical products, each carefully selected to enhance healthcare quality and address critical needs.

Our Commitment

Our goal is to make a difference by offering solutions that align with our values of quality, sustainability, and innovation. By understanding and addressing the unique needs of our customers, we help to promote a healthier future for both people and the planet.

Our Values

- » Customer Focus – We are dedicated to prioritizing our customers' needs, providing reliable products and exceptional support.
- » Quality and Safety – We carefully select products that meet stringent safety and regulatory standards, ensuring their dependability in clinical environments.
- » Sustainability – Reducing our environmental impact is essential to our mission. We implement eco-friendly practices such as FSC-certified packaging, minimized air transport, and resource-efficient operations.
- » Innovation – We strive for continuous improvement by seeking new, innovative solutions that can better support healthcare professionals and patients across various areas of care.

We believe that every step, no matter how small, contributes to a healthier and more sustainable world. As a supplier of medical products, NordicMed remains committed to advancing healthcare with products and practices that respect both people and the planet.

LANCETS

Safety Blood Lancet

Safe, Precise, and Comfortable Capillary Blood Sampling

The Safety Blood Lancet from NordicMed is designed to offer secure, efficient, and comfortable capillary blood sampling experience, perfect for both healthcare professionals and patients. With a simple push-button activation, the lancet provides a swift and precise sample while minimizing discomfort. Its safety features protect users from accidental needle sticks, making it a dependable choice for accurate and hygienic blood sampling.

Color	SKU	Model	Puncture depths	Quantity
	XH1 21G	21 G	1.8 mm	200 pcs
	XH1 23G	23 G	1.8 mm	200 pcs
	XH1 25G	25 G	1.8 mm	200 pcs
	XH1 28G	28 G	1.6 mm	200 pcs

Key features

- » **Effortless Operation:** Designed for convenience, the lancet provides swift, effortless blood sampling with a simple button push.
- » **Enhanced Safety:** Designed to minimize the risk of accidental needle sticks before and after use, ensuring safety for both users and healthcare professionals.
- » **Precision and Consistency:** Built to deliver reliable and precise results with each use, supporting consistent and accurate sampling.
- » **Maximum Comfort:** The fine-gauge needle and gentle puncture mechanism reduce discomfort, making the sampling process as comfortable as possible.
- » **Environmentally Friendly Packaging:** Packaged in FSC-certified material, promoting sustainability without compromising functionality.

Adjustable Safety Lancet

Versatile and Safe Blood Sampling

The Adjustable Safety Lancet from NordicMed is designed to provide a safe, customizable, and comfortable capillary blood sampling experience. With three depth settings, this lancet offers users the flexibility to select the most comfortable and effective penetration depth, ensuring reliable sampling across various applications. Its push-button activation and built-in safety features make it easy to use while reducing the risk of accidental needle sticks, making it ideal for both professional and patients.

Color	SKU	Model	Puncture depths	Quantity
	XA5 21G	21 G	1.3 / 1.8 / 2.3 mm	100 pcs
	XA5 23G	23 G	1.3 / 1.8 / 2.3 mm	100 pcs
	XA5 26G	26 G	1.3 / 1.8 / 2.3 mm	100 pcs
	XA5 28G	28 G	1.3 / 1.8 / 2.3 mm	100 pcs

Key features

- » **Customizable Depth Settings:** Offers flexibility with three adjustable depth options (1.3, 1.8, and 2.3 mm) allowing users to tailor the penetration depth to meet individual needs.
- » **High Versatility:** Designed for compatibility with a wide range of existing testing protocols maximizing convenience and usability in diverse settings.
- » **Enhanced Patient Comfort:** Allows for selection of the most comfortable penetration depth, reducing discomfort and making blood sampling a more pleasant experience.
- » **High Safety and Reliability:** Features automatic needle retraction to minimize the risk of accidental needle sticks, ensuring the safety of both users and healthcare professionals before and after use.
- » **Environmentally Friendly Packaging:** Packaged in FSC-certified material, promoting sustainability without compromising functionality.

Contact Activated Safety Lancet

Precision and Comfort in Blood Sampling

The Contact Activated Safety Lancet from NordicMed is expertly designed to offer safe, comfortable, and efficient capillary blood sampling experience. With a contact-activated mechanism, it provides a smooth, consistent puncture while minimizing pain and discomfort. The lancet's ultra-sharp, tri-beveled needle and advanced spring technology ensure controlled penetration, making it an ideal choice for healthcare professionals and patients alike.

Color	SKU	Model	Puncture depths	Quantity
	XY1 21G	21 G	2.0 mm	100 pcs
	XY1 23G	23 G	1.8 mm	100 pcs
	XY1 25G	25 G	1.8 mm	100 pcs
	XY1 26G	26 G	1.8 mm	100 pcs
	XY1 28G	28 G	1.8 mm	100 pcs
	XY1 30G	30 G	1.5 mm	100 pcs

Key features

- » **Gentle Sampling Experience:** Ultra-sharp tri-beveled needle and highspeed penetration help make blood sampling as gentle and comfortable as possible.
- » **Effortless Handling:** Ergonomic design ensures a natural, comfortable grip, making the lancet easy to use for both professionals and patients.
- » **Advanced Safety Assurance:** Instant needle retraction after use protects users by significantly reducing the risk of accidental needle sticks.
- » **Environmentally Friendly Packaging:** Packaged in FSC-certified material, promoting sustainability without compromising functionality.

Blood Lancet

Precision, Comfort, and Ease of Use in Capillary Blood Sampling

The Blood Lancet from NordicMed is for single use and is designed to deliver a safe, precise, and comfortable blood sampling experience. Built for enhanced stability and control, this lancet minimizes movement during ejection, ensuring reliable capillary sampling with minimal discomfort. Ideal for both professional and patients, it offers a seamless and simplified sampling process.

Color	SKU	Model	Quantity
	BYY3 28G	28 G	200 pcs
	BYY3 30G	30 G	200 pcs
	BYY3 33G	33 G	200 pcs

Key features

- » **Steady Precision:** Designed for stable ejection, reducing vibration and movement to ensure accurate and consistent capillary blood sampling.
- » **Gentle on Skin:** Smooth, controlled ejection minimizes tissue impact, providing a gentle experience that reduces pain and irritation.
- » **Effortless Sampling:** Designed for simplicity, this lancet makes blood sampling easy and efficient, enhancing the user experience.
- » **Compatibiity:** Lancing device CX11B1
- » **Eco-Friendly Packaging:** FSC-certified packaging promotes environmental responsibility without sacrificing functionality.

PEN NEEDLES

Pen Needle

Precision, Comfort, and Reliability in Insulin Delivery

The Pen Needle from NordicMed is designed to provide a dependable, comfortable, and safe insulin injection experience. Designed with high structural integrity and precision, this needle minimizes the risk of bending and ensures consistent insulin dosing with every use. Its compatibility with a broad range of insulin pens makes it a versatile choice for patients seeking reliable and flexible diabetes management.

Color	SKU	Model	Needle Diameter	Puncture depths	Quantity
	CT-2912	29 G	0.33 mm	12 mm	100 pcs
	CT-3008	30 G	0.3 mm	8 mm	100 pcs
	CT-3105	31G	0.25 mm	5 mm	100 pcs
	CT-3106	31G	0.25 mm	6 mm	100 pcs
	CT-3108	31G	0.25 mm	8 mm	100 pcs
	CT-3204	32G	0.23 mm	4 mm	100 pcs
	CT-3205	32G	0.23 mm	5 mm	100 pcs
	CT-3206	32G	0.23 mm	6 mm	100 pcs

Key features

- » **Reduced Needle Bending Risk:** Enhanced structural integrity reduces the risk of needle bending or deformation, allowing for smooth and reliable injections.
- » **High Versatility and Compatibility:** Compatible with a wide variety of insulin pens, providing patients with the flexibility and convenience to use their preferred devices.
- » **Environmentally Friendly Packaging:** Packaged in FSC-certified material, promoting sustainability without compromising functionality.

Safety Pen Needle

The Safety Pen Needle from NordicMed is designed with the safety of both patients and healthcare professionals as its top priority. This single-use, secure needle is specifically designed to reduce the risk of needlestick injuries while minimizing cross-contamination potential. Fully compliant with regulatory standards, it is a trusted choice for safe and reliable insulin administration, making diabetes management simpler and more effective.

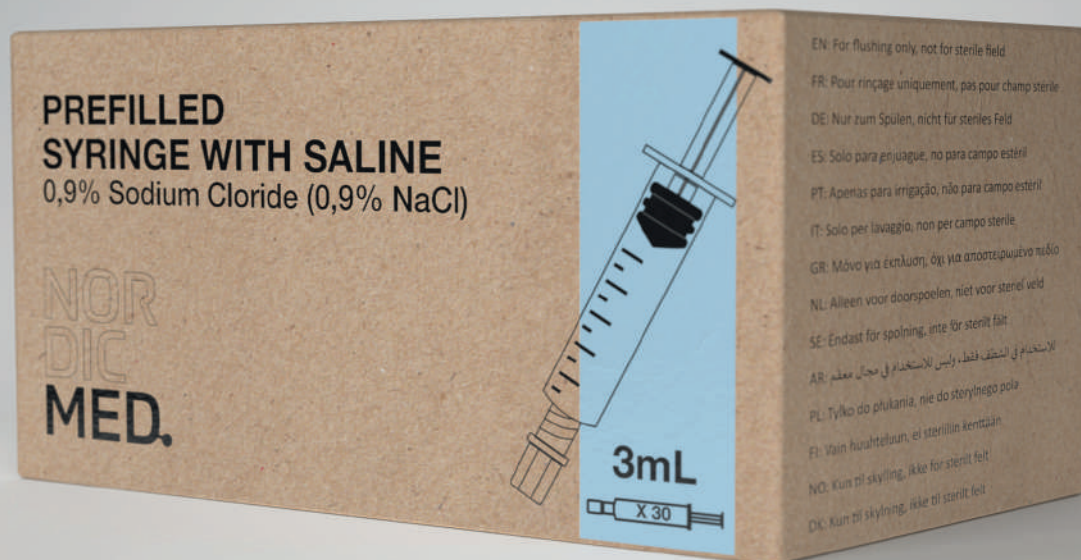

Color	SKU	Model	Needle Diameter	Puncture depths	Quantity
●	ST-3005	30 G	0.3 mm	5 mm	100 pcs
●	ST-3008	30 G	0.3 mm	8 mm	100 pcs

Key features

- » **Advanced Needlestick Protection:** Thoughtfully designed to lower the risk of accidental needlestick injuries, providing safe handling for both patients and healthcare providers.
- » **User-Friendly Design:** Prioritizes convenience and ease of use, enabling quick and efficient injections.
- » **Optimal Hygiene:** Single-use structure promotes hygiene, significantly reducing the chance of cross-contamination and infection transmission.
- » **Meets Regulatory Standards:** Fully adheres to needlestick prevention and medical safety standards, offering reliable use across healthcare environments.
- » **Environmentally Friendly Packaging:** Packaged in FSC-certified material, promoting sustainability without compromising functionality.

SYRINGES

Pre-filled Syringe

Sterile 0.9% NaCl, a reliable and convenient solution

The pre-filled syringe from NordicMed contains 0.9% sodium chloride (NaCl) solution, providing a convenient and ready-to-use option for various medical applications. The syringe is equipped with a secure Luer-Lock connection, ensuring a reliable and leak-proof attachment to compatible devices. Although the exterior of the syringe is non-sterile, it is clean and designed for safe handling in controlled environments. The product is for flushing only and not for sterile field.

Color	SKU	mL	Quantity
	DaNo-VA0103PP	3	30 pcs
	DaNo-VA0105PP	5	30 pcs
	DaNo-VA0110PP	10	30 pcs

Key features

- » **Pre-filled with 0.9% NaCl Solution:** Ready-to-use sterile sodium chloride solution (0.9%) simplifies the preparation process, saving time and ensuring consistency.
- » **Luer-Lock Connection:** The secure Luer-Lock mechanism ensures a tight, leak-proof connection to compatible medical devices.
- » **Non-Sterile Exterior:** The syringe is clean but non-sterile on the exterior, making it suitable for use in controlled environments where external sterility is not required.
- » **Safe and Convenient:** Designed for quick, easy, and safe use, suitable for professional medical settings.
- » **Environmentally Friendly Packaging:** Packaged in FSC-certified material, promoting sustainability without compromising functionality.

TOURNIQUETS

REF NM-TQ003

Roll Tourniquet

Disposable, Convenient and Ensure Safety

The disposable Roll Tourniquet from NordicMed combines premium materials with an innovative, user-friendly design, ensuring both hygiene and convenience during blood sampling. Each roll includes 25 tourniquets, providing an efficient solution for healthcare professionals.

REF NM-TR003

Roll Tourniquet

Transparent, Disposable, Convenient and Ensure Safety

The transparent Roll Tourniquet from NordicMed combines high-quality materials with a hygienic, thoughtful design, making it an ideal solution for blood sampling. Each roll contains 25 transparent tourniquets, offering healthcare professionals a practical and efficient option in various clinical settings.

REF NM-TQ016

Classic Tourniquet

Reusable

The reusable Classic Tourniquet from NordicMed is designed to deliver reliable performance and efficiency in blood sampling and various medical procedures. Constructed from high-quality, durable polyester, this tourniquet is built to withstand repeated use in demanding healthcare environments, ensuring long-lasting reliability for healthcare professionals.

REF NM-TR016

Easyclean Tourniquet

Reusable

The reusable Easyclean Tourniquet from NordicMed is designed for efficient blood sampling and straightforward cleaning, making it ideal for various clinical applications. Made from high-quality TPE (Thermoplastic Elastomer) with a durable ABS (Acrylonitrile Butadiene Styrene) buckle, this tourniquet is built to withstand rigorous use while maintaining reliability and flexibility. Its latex-free, non-sterile design ensures safety and ease of use, catering to the needs of healthcare professionals.

FACE MASKS

REF HY9330

FFP3 Respiratory Protection

Folded without Valve

The FFP3 Respiratory Protection mask from NordicMed provides top-level protection against airborne particles, ideal for high-risk environments. With a foldable design this mask offers superior filtration and breathability, making it suitable for use where maximum respiratory protection is needed.

REF HY9332

FFP3 Respiratory Protection

Folded with Valve

The FFP3 Respiratory Protection mask from NordicMed provides top-level protection against airborne particles, ideal for high-risk environments. With a foldable design and exhalation valve, this mask offers superior filtration and breathability, making it suitable for use where maximum respiratory protection is needed.

REF CN102202

Medical Face Mask Type II

Ear Loops

This Medical Face Mask Type II from NordicMed offers high-level protection and comfort for everyday use in medical environments. The 3-ply construction ensures efficient filtration, making it suitable for protecting against particles and droplets. It is MD approved and latex-free, making it safe for users with latex allergies. The mask also features an adjustable nose wire for a secure and comfortable fit.

REF CN102002

Medical Face Mask Type IIR

Ear Loops

The Medical Face Mask Type IIR from NordicMed is designed for high-level protection and comfort, ideal for medical settings. Its 3-ply construction ensures effective filtration against particles, droplets, and fluids. It is MD approved and latex-free, making it safe for users with latex sensitivities. The integrated, adjustable nose wire offers a secure, comfortable fit.
